Quality. Value. Convenience.

On Site Customized Training Solutions

Your CPA staff deserves the best training available but providing it can be a challenge, especially when you add in the high cost of travel and time out of the office. Now you can bring top-quality programs directly to your office with the South Carolina Association of CPAs' On Site Customized Training program.

You get the highest quality CPE tailored to meet your specific needs at a fraction of the off-site cost. The Association's on site training staff can help you plan and customize educational programs for any size group. From technical topics to professional ethics to leadership and management courses, we can find a great fit for any organization and any budget.

The Challenge

Balancing cost effectiveness with the need to get relevant training and information in today's fast-paced business environment can be challenging.

The Solution

The South Carolina Association of Certified Public Accountants offers onsite customized training. It's a highly effective training solution - delivered right to you when and where you want it and provides you with a wide variety of advantages.

Convenience

We'll handle all the details in delivering the program to your office that meets your specific training needs. After it is over, we record and maintain proper documentation of all CPE hours earned. All you have to do is:

- Select the date and the topic
- Reserve a meeting room
- Inform your staff

Cost Savings

Sending staff to CPE events can add up! Aside from the cost of each registration, your staff often has to incur travel expenses or lose valuable time traveling. Bringing CPE to your site gets rid of those incidentals. Plus, if your training group is large enough, customized training could save you additional money. Training 20 staff in your office could reduce your course costs by as much as 25 percent compared to similar public seminar training.

Team Building

Providing programs in your office helps your staff develop skills and address issues as a team. It also creates a common understanding of the training subjects presented.

Tailored Content

We offer a large variety of courses to cover everything from accounting to technology. We even offer several "soft skill" courses, including leadership development and communications. That gives you a wide array of courses and instructors to choose from to create the perfect program to fit your needs.

Confidentiality

With customized training, you have the competitor-free learning environment that allows your staff to discuss the sensitive company issues and proprietary information you need to cover.

Trusted Resource

These continuing education programs are from a trusted resource. The South Carolina Association of CPAs provides quality training featuring nationally known speakers to thousands of CPAs annually.

Get Started

Contact SCACPA Associate Director **Reva Brennan, MPA, CAE** at (803)791-4181 x103 or rbrennan@scacpa.org, or visit www.scacpa.org/onsitetraining.
